The Original Legume Inoculator
NITRAGIN
 Forty Years of Service

Don't Lose These Extra Profits by Failing to Inoculate Your Legume Seeds with →

BUILD UP YOUR SOIL

Inoculate All Your Legumes with NITRAGIN

Make the most of your seed, soil and labor. Don't let legumes rob your soil! If not properly inoculated legumes "steal" fertility from the soil. If inoculated with Nitragin, they draw fertility from the air . . . grow faster, heavier . . . make more and richer feed . . . return more nitrogen and organic matter to the soil . . . protect and build up the soil. The cheapest legume crop insurance money can buy is NITRAGIN!

Culture Group "A"—Alfalfa, Black Medic, California Bur, and Annual Yellow and Biennial White Melilotus (Sweet Clover).

Culture Group "B"—Alsike, Crimson, Hop, Persian, Red, and White Dutch.

Size	Retail
½ bu., 30 lbs. seed.....each	\$.30
1 " 60 lbs. seed.....each	.50
2½ " 150 lbs. seed.....each	1.00

Culture Group "L"—All varieties of Lespedeza—Unhulled or Hulled. Single bushel unhulled requires only 1 bu. size. Single bushel hulled requires 2 bu. size.

Size	Retail
1 bu., 30 lbs. seed.....each	\$.30
2 " 60 lbs. seed.....each	.50
5 " 150 lbs. seed.....each	1.00

NEW GARDEN SIZE

For Garden Peas, Beans, Sweet Peas, Lima Beans, and Lupines. Inoculates any amount up to 4 lbs. seed. Price each, Retail.....10 cents

HAND SEED SOWERS

Cahoon—Durable and dependable for sowing Austrian Peas, Vetch, Oats, Lespedeza, grass and clover seed, etc. Adjustable for different sized seed. Capacity, 3/5 bu. Shipping wt., 8 lbs.

Prices: \$4.40 f.o.b. here; \$4.75 postpaid.

Cyclone—Fine for sowing all large and small seed which are commonly broadcast. Simply constructed, easily operated, and very popular. Has adjustable feed gate. Oscillating feed plate won't clog. Capacity, 1/2 bu. Shipping wt., 4 lbs.

Prices \$2.25 f.o.b. here; \$2.50 postpaid.

A SOIL BUILDER AND CONDITIONER

—Manufactured by a Large and Reliable Firm—

COLLOIDAL LONFOSCO PHOSPHATE THE SOIL BUILDER

GUARANTEED

By the manufacturer to contain a MINIMUM of 18% total Phosphoric Acid, but the average composition tests 20% to 23%. The Lime content runs around 25%.

NEEDED BY LEGUMES

It is highly important to feed phosphorus to Austrian Peas, Vetch, Crotalaria, pasture clovers and all other legumes. With its high grade colloidal phosphate, **LONFOSCO** not only supplies this essential food but also reduces soil acidity, a vital matter on many soils.

RETAINS MOISTURE

LONFOSCO really holds moisture. Because of this property, your crops will STAND UP AND THRIVE BETTER DURING DRY SPELLS.

HELPS PREVENT NITROGEN LOSSES

LONFOSCO helps prevent the evaporation and leaching of nitrogen, whether in the form of commercial fertilizer, manure or cover crop.

EASY TO HANDLE

Because it is marketed in pellet form, **LONFOSCO** is easier and cleaner to distribute than phosphates which are prepared in powdered form.

GOVERNMENT PAYMENTS

Approved by U.S.D.A., Washington, D. C. **LONFOSCO** qualifies for payments of \$6.00 per ton when applied according to Government regulations under cover crops, on pastures, etc. The usual application is 500 pounds per acre.

SHIPMENTS

LONFOSCO is shipped in 30, 40 and 50 ton cars. It is packed in 100 pound paper bags, 200 pound new jutes or in bulk. (Bags of extra good quality—printed 2 colors.)

PRICE APPEAL

The price will appeal to you. Write or wire us at once for delivered quotations and further information. **LONFOSCO** has uses the year-around.

IT WILL PAY YOU WELL TO USE LONFOSCO ON:

Pastures
All Clovers
Lespedezas
Austrian Peas
Vetches
Tobacco
Citrus Groves
Kudzu

Peanuts
Chufas
Crotalaria
Cow Peas
Soy Beans
Velvet Beans
Small Grains
Vegetables

Cotton (in home mixtures)

NOTICE:—When it comes to seed, it pays to buy the BEST. However, lower grades of the above are on the market, and if you want them, ask for quotations.)

KUDZU—For Hay, Grazing, Stopping Washes
1 lb. 5 lbs. 10lbs.
Imported seed, Scar., per lb..... \$ 1.25 \$ 1.10 \$ 1.00
(Ideal planting period to avoid excessive growth is late May, June and early July. Have well-prepared seed-bed. Cover lightly. Sprinkle beds if moisture lacking. Transplant in fields next spring. This is cheapest method of establishing Kudzu. Very important use our SCARIFIED Seed. Write for further information.)

SPECIAL NOTICE

When ordering less than 10 lbs. of an item, please add 3c. per lb. to the 10 lb. rate. To arrive at the per peck price (where seed are quoted by the bu.), take ¼ of the single bu. price and add 10c. to it.

JUNE 3, 1939

OUR 1939-40 CATALOG

Is ready for distribution. Our mailing list is so large that we feel unable to send everybody a copy. We are mainly sending them to our largest buyers and to the names most current on our list. Should you not receive a catalog and want one, please ask for it. Since our supply is limited, won't you please preserve your copy? Another supply will not be issued until the fall of 1940.

CROTALARIA—Re-cleaned and Scarified

A-1 Quality, New, Branded, 100 lb. Bags.
Per Pound
10-99 lb. 100 lb. 500 lb.
Late Spectabilis..... .09 .08 .07¾
Early Spectabilis (Scarce)..... .12 .11 .10¾
Intermedia (Edible Kind)..... .15 .14 .13¾

● CROTALARIA is now cheaper than ever before. Our seed are well re-cleaned, scarified, tested and tagged, and as high quality as money can buy. We are prepared to fill orders immediately for the varieties quoted above.

● CROTALARIA is a wonderful soil builder. Some authorities have stated that if it was grown on all corn lands, it would in one year make the South a seller of corn rather than a buyer.

● CROTALARIA is an approved legume crop under the AAA program. The payment is \$1.50 per acre. It will pay you well to make a liberal use of Crotalaria. Plantings can be made at least 30 days longer and 60 days or more in some sections.

● CROTALARIA GATHERS MORE NITROGEN AND PRODUCES MORE HUMUS THAN ANY SUMMER LEGUME KNOWN! For further details, see pages 20-21 of our Catalog.

SESBANIA—Re-cleaned and Scarified.

Extra Fancy (Scarce)..... .08 .07 .06¾
(Ideal quail feed. Splendid quick summer cover crop.)

Yellow Dent (Wood's)..... 1.60 1.55 1.50
(If you want the purest and best in seed corn, you will buy Wood's. It is "tops.")

HYBRID CORN for SOUTHEAST

(Grown by T. W. WOOD & SONS)
The country is rapidly turning to Hybrid Corn. It is estimated that 35,000,000 acres will be planted in 1939. It gives BIGGER YIELDS at no greater cost than regular varieties except seed. Hybrids also have deeper roots, stronger stalks, and are more resistant to storms, drought and disease. Ask for folder for more information. Our Hybrid Corn already treated free with Semesan, Jr. Very important to use seed produced in and for the South.

Wood's Hybrid White Dent..... \$5.70 \$5.60 \$5.50
Wood's Hybrid Yellow Dent..... 5.70 5.60 5.50
Wood's Hybrid Golden Dent..... 5.70 5.60 5.50
